University Lands Preference of Data
We require the electronic survey files for an application form to be in two formats.
1. **ESRI GIS Shapefile (.shp)**
2. **PDF of plat**

The best way to give University Lands this data is to send an email to **ULRW@utsystem.edu** a zipped shapefile **AND** a PDF of the survey.

1. **GIS Survey Data**: Shapefile (.shp) – ESRI's shapefile consist of several files so it needs to be zipped.
   - Mandatory files that need to be zipped
     - .shp – shape
     - .shx – shape index
     - .dbf – attribute
     - .prj – projection
   - Optional files
     - .sbn and .sbx – spatial index
     - .shp.xml – metadata in XML

Tombstone_NAD83.zip

Name ▲	Type
Tombstone_NAD83.dbf	DBF File
Tombstone_NAD83.prj	PRJ File
Tombstone_NAD83.sbn	SBN File
Tombstone_NAD83.sbx	SBX File
Tombstone_NAD83.shp	SHP File
Tombstone_NAD83.shx	SHX File

2. **Survey Plat:** Portable Document Format (.pdf) - Adobe Acrobat system file
   - On easement plats, provide centerline description.
   - **DO NOT** define width of easement.
   - On commercial lease plats, provide metes and bounds description.
   - **DO NOT** place the word **"Permanent"** on the plat.
   - If right of way spans multiple sections only show the survey of **ONE** section **PER** page.
   - Only show survey of what is being applied for.
