RE: UT Lease #70949, SE/4 of Section 30, Block 58, 159.825 acres, Reagan County, Texas,  
 University "30-B" #2 oil well, Spraberry (Trend Area) field, RRC #07986

Dear Supervisor:

Based on our records, the captioned lease automatically terminated under its own terms effective midnight August 29, 1995. Our records reflect that there was no production from this lease for a period of sixty (60) consecutive days. This office has received no evidence that additional drilling or reworking operations were commenced, nor was a shut-in payment made during that 60-day period to continue the term of the lease. One hundred percent (100%) of any production from the lease after the above date belongs to the University. If you do not agree with this conclusion, please advise us of your position.

In accordance with terms of the lease, you must not remove the casing or any part of the equipment from the well(s) on the lease without the written consent of the Board for Lease of University Lands or its authorized representative. All dry or abandoned wells must be plugged to the satisfaction of the Railroad Commission of the State of Texas. Please contact the office of West Texas Operations- Midland, Texas at (915) 684-4404 regarding these matters.

Termination of the lease does not relieve you of any rentals, royalties, or financial obligations which may have accrued during the term of the lease.

Thank you for your cooperation. If we can be of assistance in any way, please contact us at (512) 499-4712.

Sincerely,

A handwritten signature in cursive script that reads "Grace Crum".

Grace Crum, Lease Analyst  
 Land Records & Revenue Section
