RE: LEASE: EMMA /DEV./ CONS. NO. 1
RRC DIST NO: 08 WELL NO(S): F 7VU
COUNTY: ANDREWS API NO: 003 01705
LEASE NO: 12458

Dear Operator:

We have approved your request for a W-3A (proposed plugging) extension to allow more time to bring the subject well(s) into compliance with the applicable provisions of Statewide Rule 14. These provisions require that older, inactive wells be tested to show that they pose no threat of potential pollution or that they be plugged if they are not returned to an active status.

If you have not filed the required documentation with the appropriate district office prior to 60 days from the above date, the 14(b)(2) extension(s) on the well(s) will be canceled and you may be subject to severance and Legal Enforcement proceedings. Please note that while the proposed plugging plan may be valid up to six months, this extension does not exceed two months from the date of this letter.

To ensure prompt processing, please attach a copy of this extension letter to any H-15 related filing on the subject well(s). If you have any questions, please call at (512)463-6912.

Sincerely,

H15, FIELD OPERATIONS
