Hi Cindy,

The referenced wells are not producing and are shut in. There have been no production, sales or changes in status since we assumed these wells from Noble Energy, effective September 1, 2018.

Also, James Spillane is no longer an employee of the company.

Thanks,

**Fredrick G. Turner, Jr., CPA**  
Revenue Accountant

Fred,

The wells are not producing and are Shut In. This is still accurate. No production and has 125 bbls of inventory.

Rees

Rees,

Please see Cindy's emails below. Can you verify the status of these wells? I corrected the inventory on these wells a month ago.

Thanks,

Please provide the same data for the University A-S #2 and #3 wells also. They're carrying a combined total of 125 bbls inventory with no current production.

**Subject:** 42-475-34854

Please provide the current status of the University 16-12 B #3R well. Our records show the well to be producing, however the last volumes reported to this well were July 2018. We need the current status and the status change date. If the well is shut-in, please sell current inventory (210 bbls) and pay UL royalties. Once this has been done, UL production reporting requirements for this well will be closed.

Thank you,
